

## THE SCHOOL MUDDLE.

The next Legislature should pass a law to enable the public schools of this State to keep in operation during the regular school months of the year with a certainty which would do away with the muddles in school affairs which are of such frequent occurrence in nearly every county of Nevada. We are continually told of the immense school fund which this State enjoys, and with such a fund at its disposal it is rather remarkable that there is such a frequent deficiency.

Ormsby county is now suffering from a deficiency in the school fund, and the teachers do not know whether the teachings of the next sixty days will bring them a cent or not. The teachers are supposed to be employed ten months in the year, but this year the money is only sufficient for eight. If they teach the other two they take their chances on the Legislature passing a deficiency bill, and all know how hard this is to do with a few narrow-minded economic cranks fighting the proposition. If they get their pay in school warrants and wish to realize ready money they will only be able to dispose of the warrants at a heavy discount, and in any event they are bound to be losers.

Last evening an exhibition was given by the school children to raise money for the purchase of school organs. The organ is a necessary adjunct of a school, and there ought to be funds to pay for these things without the necessity of turning a public school upside down and breaking up the best part of a month in rehearsals and drills. The time thus taken up is a loss to the scholar, teacher and everybody else. This State should assume a more liberal policy toward its schools.

## New Loan and Investment Co.

The stockholders are men of well known integrity and ability, and will no doubt gain the confidence and support of the general public. Each subscriber to the capital stock was limited to \$5,000, and the full amount was taken inside of one week.

## Inyo Marble.

The managers of the Inyo Marble Company, organized to develop the deposits of dolomite marble found near Owens Lake at Keeler, Inyo county, are doing all that can be done to call attention to the surpassing value of their product for building material. Freight rates have been arranged at \$8 per ton in car-load lots from the quarry to Sacramento and San Francisco, and for less than car-load lots 80 cents per hundred pounds.

The marble is hard, solid and free from flint. A recent test made at the University of California resulted in crushing an inch cube of Inyo marble at 26,900 pounds pressure, while Vermont marble was crushed at 6,000 pounds, and Italian marble at 10,000 pounds pressure. The varieties are almost every color known in marble, and some most beautiful and rare combinations, from the pure white statuary and the black, the deep blue or blue and black, to a delicate dove color and golden or yellow-veined marble, a mottled bright drab and brown and on a cream ground a delicate veined marble with figures of trees and ferns, like moss agate.

The small-pox scare cost Los Angeles \$9,870 16.
